# CAT CERTIFIED USED. THE BENEFITS.

## MORE THAN 70 COMPONENTS PROTECTED

A Caterpillar Equipment Protection Plan (EPP) that covers more than 70 powertrain and hydraulic components comes standard — extending your protection beyond the original factory warranty and helping you limit unexpected repair bills.

Also if your machine is equipped with Product Link, we'll turn it on for you so you can stay connected.

## UP TO 140 POINTS INSPECTED

Every machine must pass a comprehensive 140-point inspection. If that reveals any issues, highly-trained technicians service it using only genuine Cat parts.

They also complete all the most recent maintenance, so you don't need to worry about changing oil or filters until the next interval.

## SERVICE HISTORY

Many machines come right from our rental fleets, so you'll know exactly how your machine was maintained, and a documented service history is available, so you can make an informed decision BEFORE you buy. Having the complete service record in hand can help you obtain a higher resale value when you're ready to sell, too.

## OUR PRODUCTS & SERVICES

We can provide a wide range of machines from small excavators to large off-highway trucks. In addition to this, William Adams specialises in the maintenance, repair and overhaul of most Caterpillar and Cat Compact Power Systems operating in Power Generation, Marine, Petroleum, Gas, and other industrial applications.

Not only do we serve and support our customers in Victoria and Tasmania, we are also engaged in providing equipment and product support solutions to our international customers throughout the Antarctic region.

## WORKSHOP CAPABILITIES

All branches are supported with specialised tooling and Cat trained Technicians to meet your equipment servicing needs. Most repair and rebuild work can be completed at your local branch, but any specialised tasks are directed to the branches with these facilities.

In addition to mechanical repair servicing, there is also a portion of the company with fabrication and machining capabilities. Machine frames and structures can be repaired at the various branch workshops.

All William Adams locations are equipped with specialised facilities to carry out a wide range of work for on-highway customers who own any make or model of on-highway truck.
